

KT-DIN-Winkel

Mounting bracket for DIN switches

- Mounting of the switches rotated by 90 degrees
- Suitable for different switches
- Mounting on DIN rail or on a flat mounting plate
- Incl. mounting material

More information

The KT-DIN bracket is suitable for mounting various DIN rail switches from the barox range. The switches can be mounted rotated by 90° and therefore do not extend as far into the depth of e.g. a terminal box. The bracket fits the following switches:

PC-PIGE502-GBTE
 PC-PIGE502-GBTE-B
 PC-PITE502-GBTE
